Introduction

This is a collection of some selected papers presented at ICBER2012; ICASE2012 and ICSCS2012 held in Port Harcourt, Nigeria. Our conference series academic activities for interested scholars, scientists, technologists, policy makers, corporate bodies and graduate students. The aim of the conferences is to diffuse research findings and create a conductive environment for scholars to debate and exchange ideas that lead to sustainable development.

Following the call for papers by the International Scientific Commission, we received more than 200 proposals from 25 different countries from all continents. As a commitment to the vision and mission of academic excellence and integrity, each paper was anonymously reviewed by two members of the editorial sub-committee of the Commission. This Special Issue contains a selection of some best papers presented at the conferences now published as journal articles for wider readership.

We thank the Management and staff of Mediterranean Center of Social and Educational Research for their support and continued collaboration.

Jacinta A. Opara, PhD

Visiting Associate Professor, Universidad Azteca, Chalco-Mexico and
President, African Association for Teaching and Learning
